

PRODUCTIVITY NO LONGER JUST AN IDEA!

# MAPTSOFT PLACES THE POWER IN YOUR HANDS!

## MAPTSOFT HOW IT WORKS

- RFID technology
- Track any asset
- Rugged handheld devices
- Electronic Inspection
- Maintenance programs
- Customizable reports
- Cloud computing

*Provides Global System &  
Component Performance Data*

### What we can control:

- Can positively influence conveyor availabilities.
- Can positively influence production output through increased conveyor availabilities.
- Can reduce unscheduled maintenance requests.
- Can positively impact overall operating costs.  
(components/labour)
- Can measure and track all aspects of conveyor system maintenance cycle.
- Can measure/track and trend performance of assets on site.

**INTELLIGENT ASSET MONITORING MADE EASY**
